

Dear CCC,

We have been evaluating the impact of the Coronavirus on the church and its members and reviewing all our procedures. With constant news coverage it seems like there is a lot of panic surrounding COVID-19, the novel strain of this virus. As a church we are taking precautions to ensure that we keep our facilities clean. There are hand sanitizers at Info Counter and in every classroom downstairs and we are continually cleaning the facility.

We have included a link from the Centers of Disease Control regarding this new strain of the coronavirus (COVID-19) and how to keep yourself safe: <https://www.cdc.gov/coronavirus/2019-ncov/community/home/cleaning-disinfection.html>

- Do not attend service or ministry events if you are sick or showing any symptoms of illness. If your children are ill or showing any symptoms of illness, please keep them home to avoid the potential of spreading to others. We do have live stream go to our website www.cccrossfields.org and click on the “Live” tab.
- Practice social distancing as directed on the CDC website, do not feel that you have to shake hands.
- Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available, use hand sanitizer.
- Avoid touching your face with unwashed hands. It’s a good habit to avoid touching your face as germs can spread through your nose, mouth and eyes.
- Avoid close contact with people who are sick.
- Clean and disinfect surfaces you frequently use such as “high touch” areas in your workspace, car and home.

Blessings,

Your Pastoral Staff
